## SWEDEN AND JÖNKÖPING

Sweden is known for being a clean, beautiful country, covered with lakes and forests and inhabited by 9,5 million people who are friendly, open-minded and welcoming. This is all true. What you have heard about high living standards and low crime rates is true too. There is also beautiful nature, great design and good music.

You will find Jönköping on the southern shore of lake Vättern. The city has a population of 130,000 and a beautiful city centre with cafés, restaurants, shopping, concert venues and gorgeous waterfront views. The university campus is located right in the heart of the city, with anything you might need at comfortable walking distance.

## JÖNKÖPING UNIVERSITY

Jönköping University is characterised by internationalisation, an entrepreneurial spirit and collaboration with surrounding society. We have about 350 partner universities all over the globe and about 1,500 of our 10,000 students are international.

Jönköping University is one of three Swedish private, non-profit institutions of higher education with the right to award doctorates. The university operates on the basis of an agreement with the Swedish government and conforms to national degree regulations and quality requirements.

Research and education are carried out at four schools: School of Health Sciences, School of Education and Communication, Jönköping International Business School and School of Engineering.

## JÖNKÖPING INTERNATIONAL BUSINESS SCHOOL

# Application process for exchange students

## HOW TO APPLY

JIBS will receive nominations from the student's home university, after which the student will be provided with a username and password to be able to log in to our online application. All exchange students are required to apply online and to fill out all the information requested in the application such as personal information, choice of courses, and so forth.

## REQUIRED DOCUMENTS

The student must print out the Choice of Courses confirmation, have it signed by the coordinator at their home university and then e-mail it to JIBS ([application.inexchange@jibs.hj.se](mailto:application.inexchange@jibs.hj.se)) together with their transcript of records

before the application deadline. We do not need the original documents, only the scanned version.

## WHEN DO I RECEIVE THE LETTER OF ACCEPTANCE?

The application can take between 2 to 3 weeks to be processed. We kindly ask students to be patient.

European students will only receive their letters of acceptance by e-mail (if they do not request the original). Students from outside Europe will receive it by e-mail and to their home address (in order to be able to apply for a residence permit).

## COURSES

Courses that do not attract a minimum

number of participants may be cancelled. In that case students must choose another course. In addition, it is possible that some courses may clash with each other. Thus, it is important that all exchange students select alternative courses in the online application form. JIBS also reserves the right to limit exchange student enrollment in classes that are at capacity.

## DEADLINES

Applications for incoming exchange:

May 15 – Autumn semester

November 1 – Spring semester

## Academic calendar

The academic year consists of 40 weeks, divided into two semesters. Each of these two semesters are divided into two periods (autumn semester: periods A1 and A2, spring semester: periods S1 and S2). Full-time study is 15 credits per period, 30 credits per semester or 60 credits per year. There is a teaching break during winter holiday. There is no break during the semester, so international students wishing to travel for more than a weekend in Sweden or Europe

should do so either before or after their study period at JIBS.

It is compulsory for the students to be in Jönköping for the introduction week. Those students that arrive during the arrival dates are guaranteed pick-up service.

Lectures and regular examinations are included in the academic calendar that ends for the autumn semester in December and for the spring semester in May.

## Grading system and study levels

### GRADING SCALE

JIBS uses a grading scale that runs from A to Fx. The grades A, B, C, D, and E are all passing grades.

A and B indicate that the student has proven very good or excellent results in relation to the intended learning outcomes of the course. C indicates that the student has proven good and sound results, D that the student has proven satisfactory results, and E that the student has proven the sufficient minimum to pass the course (fulfilling all intended learning outcomes of the course).

F or sometimes Fx is provided when a student has not succeeded in reaching the required level for a certain element of exa-

mination or intended learning outcome. Students who receive an F or Fx are offered re-examination on the course element(s) in question (e.g. written assignment, written exam, oral presentation).

The grading system as described above applies to all exchange students studying at JIBS. It is the responsibility of the student's home institution to translate his/her grades to its own system. JIBS does not award percentage grades, only letter grades. Transcripts will be sent to the home institution after the end of the semester.

### WORKLOAD

Exchange students are recommended to study at least two periods (one semester) at

JIBS, but it is also possible to study just for one period. Exchange students may study up to one year but not longer. Students are allowed to take up to 30 credits per semester (a full-time load).

In Swedish higher education, the workload of a course is based on the amount of credits that the course is worth. 1.5 credits is equivalent to approximately 40 hours (1 week) of total work. Thus, a normal course of 7.5 credits is equivalent to approximately 200 hours of total work. This includes lecture hours, group work, seminars, homework etc.

GRADE	REFERENCES TO GRADE	Provided that the student has met all intended learning outcomes; as a GENERAL rule...*
A	Excellent performance	90 % of the maximum course point warrants the student an A.
B	Very Good performance	80 % of the maximum course point warrants the student a B.
C	Good performance	70 % of the maximum course point warrants the student a C.
D	Satisfactory performance	65 % of the maximum course point warrants the student a D.
E	Sufficient performance	60 % of the maximum course point is needed to pass the course and get the grade E.
Fx or F	Fail – with some or a lot of work required before credit(s) can be awarded	Students that perform below 60 % will not pass the course.

\* Please note that deviations from the % can occur.
