JÖNKÖPING UNIVERSITY

SPECIAL EDUCATIONAL SUPPORT

We aim to help students with disability to reach their full potential. We provide a number of different arrangements in order to compensate for functional limitations in the student's study situation.

You may be eligible for support if you have an enduring physical, psychological or neuropsychiatric disability which limits the way you are able to perform in your study situation.

WHAT TO DO?

You need to register your request for support at [Nais.uhr.se](https://nais.uhr.se). You and our disability coordinator will then make plans regarding suitable support for you.

You do need to provide Jönköping University with a document (i.e. doctors certificate or similar) confirming your enduring disability.

SUPPORT

- Assisted note-taking
- Adaption of course material
- Dyslexia support
- Mentor
- Examination adjustments/ alternative forms of examination
- Special aid software and resource room
