Patricia Alonso Muela

former exchange student at JU from Escuela Técnica Superior de Ingenieros Industriales (ETSII), Universidad Politécnica de Madrid (UPM) Spain.

WHY DID YOU CHOOSE TO GO ON EXCHANGE?

I wanted a unique experience that improved my language skills, made me more independent and opened my mind to a new culture and a new way of working.

WHAT IS THE BEST THING ABOUT JÖNKÖPING UNIVERSITY?

It has to be the international environment and the student life – there are lots of student associations and activities to do, which makes it easy to meet new people. Also, the facilities here are amazing: the library, the student restaurants, the

computer labs. Everything is open 24/7. JU has done a great job with their computer system here, you can log on and work anywhere on campus.

WHAT IS YOUR FAVOURITE MEMORY?

Meeting new people through all the student activities I did, for example the elk safari and the fun student nights in RIO (the Student Union's bar).

WOULD YOU RECOMMEND EXCHANGE STUDIES TO OTHER STUDENTS?

Yes, I would, and I would especially

recommend JU as I felt more comfortable with the learning system there and their grading system was also more practical than the one in Spain. Furthermore, JU has a career centre that can help with your CV and prepare you for job interviews. It's a good idea to come here for your final year of studies, so that you can get ready for setting out on your future career!

"Academically, it was fun doing so many group works and discussions because people had different beliefs."

– Satisfied exchange student
